

Sealed Ship Containers

A sealed ship container is defined as containerized freight being transported to or from a designated seaport and has or will be transported by marine shipment for International trade with the original unbroken seal or a replacement seal affixed by an authorized government agency.

A sealed ship container may qualify for a permit if:

- **All dimensions of width, height and length do not exceed limits as specified in North Carolina General Statutes, and**
- **Traveling to or from a designated seaport (either in state or out of state), and**
- **Has been or will be transported intact by marine shipment, and**
- **Power unit is licensed for 80,000 lbs., and**
- **Vehicle/vehicle combination has at least five axles, and**
- **Proper documentation (shipper's bill of lading and/or trucking bill of lading) of sealed commodity being transported is available for enforcement inspection.**
